Over the past couple of months I have kind of been more informed and I have moved away from sending out ~~and~~ these files to other people. I have at some point in the past shared files. I have never profitted from this. It has always just been a hobby and my way of learning more about computers. However, The MPAA should take advantage of this market and allow people to retrieve this type of media via the internet even if there is a charge. All of the people who do not profit from piracy, simply do this for ~~an~~ a hobby or for more knowledge. Kids are told they must ~~not~~ see this but can't afford it. They can afford ~~DD~~
