[02:01:28] 11@Punk3r22 : they have it now just costs hundreds of thousands lol
[02:01:34] 11@derkader : not that big
[02:01:42] 11@derkader : not in a reasonable size that ive ever seen
[02:03:08] 11@Punk3r22 : i thought i saw a 120GB one somewhere but could have been
mistaken
[02:03:19] 11@derkader : i havent seen it that big but im sure it might be out
there
[02:04:29] 11@derkader : shit wont exist in a realistic market for 10 years
[02:04:31] 11@derkader : they wont allow it
[02:04:54] 11@derkader : i mean.. blu laser is in existance yet held back
[02:05:04] 11@derkader : simply because they make so much money off dvd media
[02:06:43] 11@Punk3r22 : yep
[02:06:45] 11@DPG : there will be 2 new formats
[02:06:52] 11@DPG : bluray and hd-dvd
[02:06:58] 11@DPG : just like dvd-r and dvd+r
[02:07:09] 11@DPG : they are currently fighting each other
[02:07:16] 11@Punk3r22 : dvd-r sucks
[02:07:33] 11@derkader : why
[02:07:50] 11@Punk3r22 : slower burn rate :oP
[02:08:00] 11@derkader : nah
[02:08:02] 11@DPG : or not
[02:08:04] 11@DPG : lol

[02:08:33] 11@derkader : as far as benefits
[02:08:39] 11@derkader : except compatibility
[02:08:41] 11@DPG : they can both do 11-12x speed burns
[02:08:51] 11@derkader : i burn 8x dvd-r at 11x all day long
[02:08:59] 11@derkader : with no fuckd disks
[02:09:11] 11@DPG : nice
[02:09:16] 11@DPG : 16x max speed?
[02:09:20] 11@Punk3r22 : dvd-r's go slow as shit for me
[02:09:22] 11@derkader : well burner can do 16x
[02:09:22] 11@Punk3r22 : but dvd+r's fly
[02:09:26] 11@derkader : but the disks were rated at 8x
[02:09:33] 11@derkader : i forcibly tell it to go faster
[02:09:38] 11@derkader : cause it detects it as 8x media
[02:09:41] 11@DPG : 16x max speed burn yields ~11-12x
[02:10:06] 11@derkader : ive not gotten my hands on 16x media yet
[02:10:11] 11@derkader : will here in about 4 days
[02:10:13] 11@[-sk0t-] : what do you burn with?
[02:10:13] 11@derkader : but it will be +r
[02:10:16] 11@DPG : lol
[02:10:17] 11@[-sk0t-] : Ritek
[02:10:19] 11@[-sk0t-] : ALL THE WAY
[02:10:19] 11@DPG : either way
[02:10:21] 11@derkader : software?
[02:10:23] 11@derkader : or hardware
[02:10:24] 11@DPG : 12x is as fast as you can go
[02:10:26] 11@[-sk0t-] : software
[02:10:31] 11@derkader : depends what im burnin really
[02:10:36] 11@derkader : .img i use decrypter
[02:10:47] 11@DPG : you only burn at 16x for a short burst
[02:11:33] 11@DPG : what speed does a 16x burn start at anyway?
[02:12:16] 11@derkader : hmm from what i understand
[02:12:23] 11@derkader : 16x media can sustain it
[02:12:29] 11@derkader : i mean technically nothing stops it
[02:12:38] 11@DPG : lol
[02:12:44] 11@DPG : it just doesn't work like that

[02:12:45] 11@derkader : i remember having a 2x cd burner
[02:12:52] 11@DPG : it has to build up to that speed
[02:13:09] 11@derkader : of course it does.. on 8x media
[02:13:13] 11@derkader : i start at around 5-6x
[02:13:15] 11@DPG : on any media
[02:13:17] 11@DPG : lol
[02:13:32] 11@derkader : within a minute its at 7-8x then from there it climbs

[16:27:51] 11@eternal : heh
[16:27:51] 11@mb- : AP classes are typically harder than their entry level classes
in college, you're better off not doing AP and doing the "college courses" for
highschool graduation credits if they offer such a thing
[16:27:51] 11@eternal : heh
[16:27:51] 11@eternal : AP classes are easy as hell man
[16:27:51] 11@PrOphecY : spend less time scrawling BT tracker code in your text

[16:32:29] 11@eternal : then again
[16:32:31] 11@eternal : when the web server was down
[16:32:39] 11@eternal : load averages were ~.40-.50
[16:32:42] 11@eternal : with just the tracker running.
[16:32:51] 11@eternal : with the site up
