THE FBI did not arrest the two subjects. It is my understanding the information obtained from the searches will be presented to a Federal Grand Jury, I assume, in San Diego. The items seized in the searches included computers, screens, disks, other minor computer accessories. This from both residences. Will attempt to gain a list. I took photos of the Dove search and will bring with me to Las Vegas. Nothing spectacular visible, but I believe the hard drives will reveal very interesting information. They are being examined by FBI. There was some marijuana and a pipe also! Local sheriff is interested.
